Statement of Purpose

I am looking for an opportunity to join a team and gain experience with large scale projects. My gardening apps for iOS and Android have sold over 600 copies. I have created web apps in Rails, Sinatra, and Flask, solved the first 58 Project Euler problems in a variety of languages, and am comfortable working in the command line.

I learn quickly - I read the docs, sift through stack-overflow, ask questions, and test things out. No computer science degree here, but the strategies that I used to become an expert orchestral musician - study, critique, and practice - are just as relevant when learning programming.

Skills	Projects
Javascript, jQuery	Skippy's Vegetable Planting Apps, iOS & Android
HTML, CSS	DailyBirds, a Flask app that tracks local bird sightings
Ruby, Sinatra, Rails	Colorwork, an in-browser canvas for knitted designs
Python, Flask	Project Euler problems 1 - 58
Go	simple_prime, a Go package
Phonegap/Cordova	Resume Website AmeliaFannin.github.io

Education

Doctor of Music 2009 - The Florida State University
Master of Music 2006 - Eastman School of Music
Bachelor of Music Performance 2004 - University of North Texas
Bachelor of Music Education 2004 - University of North Texas

Community Events

RailsBridge Boston Teaching Assistant, September 2014
RailsBridge Boston, January 2014
